

YOUR DATA IS A STRATEGIC ASSET

Go with a strategic partner you can trust

Information Technology Solutions That Work For Your Business

In today's volatile and competitive business environment, you need insightful knowledge about your business data to make quick and informed decisions.

This data can become a key strategic asset when it is transformed into the right information, delivered to the right people and presented in the right form.

eMAS ERP™

has the capability to transform your core data into actionable decision support information.

ABOUT US

MAS Technologies LLC is based in Dubai, U.A.E. and is one of the leading software solution providers in the region. The company was founded in 1998 with an objective to provide feature packed, future oriented, yet easy to use software modules backed by an experienced customer service staff.

Our company is committed to **"Open System Standards"** ensuring maximum choice and flexibility while implementing a **Total Information Technology** strategy.

OUR MISSION

"To provide quality software solutions to suit our customer needs and provide dedicated and long-term quality service. We understand the customer needs and always strive to exceed their expectations by assuring that the changing business needs are readily addressed."

YOUR TRUSTED PARTNER

Your continued investment on new and modern technology needs to be planned and executed from a strategic business point of view. You will need technology savvy partners who are committed and experienced in helping you achieve your organization's objectives.

At MAS Technologies, we recognize your investment and are committed to bringing you the highest quality applications and services. We believe in being your partner rather than just your solution provider. This ensures several benefits to you and your organization.

MANAGE COMPLEXITY

IMPROVE PERFORMANCE

WHY CHOOSE US?

eMAS ERP™ solution provides custom made, feature packed software modules depending on the customer's needs.

Providing effective and critical information to management at the right time and in the right form is a belief system we enforce to all our partners. This enables you to take effective business decisions using our decision support system tools.

We provide state-of-art software at an affordable price. Our design is oriented to handle any future business changes because we are constantly updating our products and services.

At MAS Technologies we listen patiently to your needs and review your requirements in detail. This enables us to provide you the best possible solutions for your organization. We believe in complete employee-software integration, therefore, all users will benefit from our simple yet effective user training program.

eMAS ERP™ FEATURES

Right Information At The Right Time!

Your data can become a key strategic asset to your business when transformed into the right information and delivered to the right department.

Boost Your Decision Maker

eMAS ERP™ can transform your core data into actionable decision support information with roles such as:

- Financial Analyzer
- Sales Analyzer
- Purchase Analyzer

No Duplication of Entry At Any Level

You make an entry only once in any module and eMAS ERP updates the related modules instantly.

No duplication of entries anywhere in the entire system.

eMAS Alerts

Setup your own alerts across all modules to track deviations through your chosen mode of delivery:

- Pop-up notifications
- SMS
- E-mail

Electronic Document Authorization

Send documents electronically to users' in-tray for authorization and eliminate physical paper movement.

Multi-level Security

Customize user access rights and set up multiple security levels based on user job requirements.

Audit Trail

Prevent manipulation by tracking every modification and deletion across the entire system.

Interface to Time and Attendance Systems

- Supports both cards as well as biometric systems
- Online integration with payroll module
- Automatic calculation of overtime
- Automated update and validation of attendance

Find & Edit Transactions

Any transaction can be searched by document number, year, month or narration in any column of the transaction.

eMAS INFO - Report Generator

eMAS ERP™ has a built-in financial report generator module. This powerful tool enables organizations to easily format and generate any number and various kinds of MIS reports including P&L and balance sheets as per user defined formats.

eMAS Dashboard (Vital information at your fingertips!)

This tool creates a real time view of vital business information in graphical or report form. Information related to sales, profit & loss, inventory, purchases, orders, production stats, etc are available to you with up to the minute accuracy.

Increase Productivity Levels of Your Manpower (No more burn-outs!)

eMAS ERP™ drastically reduces the workload of employees throughout all departments. Yes! Employees can finish their work on time and spend quality time with their near and dear ones.

Unmatched Support

Experience the best support at all times from our dedicated support staff.
